

**IPC PAS Microsymposium, 15-16.01.2020**

<b>Wednesday, 15.01.2019</b>	
9:00 – 9:15	Opening
9:15 – 9:35	Izabela Kamińska <i>Graphene-DNA origami hybrid and its bio-applications</i>
9:35 – 10:25	Flash presentations I
10:25 – 11:00	<i>Coffee break</i>
11:00 – 11:20	Krzysztof Budny <i>TEMPO and diorganozinc compounds: past, present and future</i>
11:20 – 11:40	Dimitrios Giannakoudakis <i>Additive-free photo-assisted selective partial oxidation at ambient conditions by nanostructured materials</i>
11:40 – 14:10	Poster session I

<b>Thursday, 16.01.2019</b>	
9:00 – 9:20	Emil Kowalewski <i>Water purification by catalytic hydrotreatment</i>
9:20 – 10:10	Flash presentations II
10:10 – 10:50	<i>Coffee break</i>
10:50 – 11:10	Agata Roguska <i>The 3D characterization of TiO<sub>2</sub> nanotubes by electron tomography</i>
11:10 – 11:30	Nazar Rad <i>Simultaneous positive and negative catalysis at a distance of several angstroms</i>
11:30 – 14:00	Poster session II
